Enhancing Citizen Observatories Across Europe

CitiObs' mission is to support and enhance Citizen Observatories, so that they serve as a vehicle towards sustainable development, resilient cities and inclusivity. **CitiObs will collaborate with 85 cases of Citizen Observatories**, including citizens from all backgrounds, authorities, scientists and other relevant stakeholders, enhancing the co-operation of data, knowledge and citizen-led local actions to improve the urban environment.

CitiObs at a glance

CitiObs aims to facilitate collaborative data creation, knowledge sharing, and local initiatives through **Citizen Observatories (COs)**.

Empowering Engagement

Enhancing both existing and new Citizen Observatories to actively involve people from a diverse range of communities in environmental observations.

Enriching Environmental Observations

Adding value to environmental data collected in urban areas, thereby improving our understanding of the urban environment.

Validating Citizen Observations

Increasing the reliability of citizen-generated observations in urban areas, integrating them into established Earth Observation systems.

Co-creating Inclusive Local Actions

Supporting citizen-led actions to foster sustainability, incorporating the insights and inputs of diverse stakeholders.

Supporting European Green Deal Objectives

Ensuring that the data generated by COs contributes to research and policy development aligned with the European Green Deal.

Roadmap
